OFFICIAL PAPER OF THE CITY.

PROCLAMATION BY THE GOVERNOR.

The Governor of Wisconsin hereby declares that the day of the late President Benjamin Harrison shall be observed as a day of mourning throughout the State of Wisconsin, and that the public offices shall be closed on that day.

The Approaching Session.

The Legislature meets in session on Monday next. It is expected that the session will be a busy one, and that many important measures will be introduced.

The Spanish Dispute.

The Spanish dispute continues to be a subject of much interest. The latest news from Madrid indicates that the situation remains unchanged.

PATENT MEDICINE

Entered according to Act of Congress, in the
P. O. by J. R. HOUGHTON, M. D., in the clerk's
office of the District Court for the Eastern
District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON
GREAT DYSPEPSIA CURE

F.

PEPSIN
THE TRUE

DIGESTIVE FLUID
OR
GASTRIC JUICE
PREPARED from human stomachs, or the fourth
of the three divisions of Bruner Liebig,
a Physiological Chemist, by J. S. Houghton, M. D.,
Philadelphia.

This is truly wonderful remedy for indigestion,
heartburn, flatulency, liver complaint, constipation,
colic, cholera, or Nausea, a new method, by Nature,
being the first of its kind.

[illegible]

SCIENTIFIC EVIDENCE. Baron's findings in his celebrated work on *Animal Nutrition*, 1933, "An Artificial Dietetic Fluid, made of Lactic Juice, may be readily prepared from the molar ratio of the stomach of the Calf, in which is rich of food, is meat and eggs, will be softened, and therefore, just in the same manner, they were the human stomach."

Dr. Graham, author of the famous work on

the Phil. says: "It is a remarkable fact in regard to the 'production' of animals, introduced in plants, that the flowers of these species are not only closely linked and of the same kind of artificial origin, but in no wise different from the natural process."

Professor Buchanan of the Jefferson College,phis, in his great work on Human Physiology, more than fifty pages to an examination of the Human Nervous System, writes: "The origin of the nerves from the tube, human, strongly and fully, although, more or less, in all animals, on the day of gestation," "In all cases," he says, "occurs in perfectly the same artificial as in the natural process."

Dr. John W. Draper, Professor of Chemistry, Medical College of the University of New York, "Text Book of Chemistry," page 466, says, "The fact that a substance is soluble in water does not mean it is now universally admitted that it may be so." The Professor's standard work on Physiology, in the library of every Physician, and is used as a text in all the Colleges is full of evidence similar to that respecting the remarkable life-giving power of Potash. The fact that it may be readily separated from the cells or tissues, and used for experiments in Physiology, is not merely for the purpose of the Student's recitation of Cauterizing Juice.

All modern works on Chemistry, Materia Medica,

Physiology, and all good Medical Dictation, describes character and perspective of Praxis, and state, not only details reporting it.

The fact that an Artificial Ingestive Fluid, or any product, does not alter the natural flow of any process, does not admit of question. The only fact that it has not before been possible to the cure of action and Dyspepsia—does not naturally does such a mistake to the mind.

AN A DYSPENSIA CUPEN

Dr. HANSEN'S PEPSIN has produced the most successful in curing cases of Debility, Emaciation, Indigestion, and Dyspeptic Consumption. It is

It is a good Nervous Antidote, and particularly
tendency to Biliousness, Head complaint, Ague,
Ague, or badly treated Fever and Ague, and the
Quinsy, Malignity, and other distempers upon the
Organs, after a long sickness. Also, for nervous
and the two Faces of ardent spirits. It almost
